Distribution of drinking water

Availability of drinking water in summer season is a major problem for entire Rarh area. People of Anandanagar also suffer from water specially drinking water. As such we have constructed several wells in different villages of Anandanagar. Village people have started collecting drinking water from these wells.

Construction of a new well in Lewadi village. Some information of this village”

- 1) It is a small village and the people are poor but laborious.
- 2) There are 22 families living in this village.
- 3) The population of this village is 175
- 4) There is one tube well only and that also goes dry during summer.
- 5) There is one small well not so deep enough and that also goes dry during summer.
- 6) Under AMURT Sevadal, we have started digging well near the small well.
- 7) The diameter of the new well will be 12 feet and the depth will be 30 feet.

Let us hope and pray Baba that the new well will supply sufficient water to the villagers even during the summer season also, in the service of humanity,

Golden Jubilee celebration of Anandanagar

There was Golden Jubilee celebration on 23 and 24 March in a grand manner.

Newly selected poor village students for sponsorship

To reduce the number of dropout students from our schools at Anandanagar due to ignorance, economic condition of the families we have started to sponsor poor village students from 2011 with an aim to complete their study up to Class X (School Final). Till the year 2012 we have sponsored for 38 students and for this year (2013) following 18 students have been selected to be sponsored. All are requested to help them by sponsoring.
